

I am absolutely OPPOSED to the relaxation of ownership limits for Broadcasters regulated by the FCC. And the FCC and Michael Powell should be ashamed of not having public hearings on this issue. The Broadcasters have built tremendous wealth over the last century from an almost unfettered use of the PUBLIC AIRWAVES. Now, just because the technology has allowed these owners the ability to cut staffs to a fraction, it doesn't then give them the right to change the rules that would allow an absolute blowoff of citizens rights to be served in exchange for the broadcasters use of the airwaves...Don't change the current Ownership rules.
